

# RYANEYES CONSULTING

*RyanEyes provides a combination of industry software expertise, our own proprietary software, and deep industry experience to provide automation and transparency to your operational processes*

## RyanEyes Consulting Enhances Transparency and Improves Automation

RyanEyes produces and implements innovative software solutions for the asset management industry including hedge funds, private equity funds, and buy-side firms. RyanEyes provides transparency, automation, and actionable insights across business processes to increase productivity and drive revenue. Our software solutions add critical functionality and bolster the capabilities of the industry-standard software that is leveraged by most of our clients.

Our solution enhances our client's core asset management software to deliver an enhanced level of information across the front, middle, and back-office including in their research, trading, accounting, and compliance solutions. RyanEyes consultants install, integrate, customize, and monitor our software to meet the unique and often extraordinary needs of our clients.

## We Streamline & Optimize Your Workflows

RyanEyes Software is based on a proprietary platform that can normalize, aggregate, and enrich your data across the enterprise. Our consultants replace painstaking, manual tasks leveraging our software's intelligent automation throughout the operations of the firm. We have worked in the industry for over 20 years and are both business and technical consultants handling cloud migration and configuration, big data, app creation, compliance, side letter tracking, and much more.

### Software Implementation

- Data Integration
- Cloud or In-house Managed Service
- AWS, Azure, and Softlayer Configuration
- Multi-Cloud Optimization

### Compliance
